Godolphin, Agent

To Whom It May Concern:

On May 29, 2016 I performed surgery to correct a large colon torsion and reduced a small intestinal adhesion. No colopexy was performed.

HORSE IDENTIFICATION

CERTIFICATE

DATE

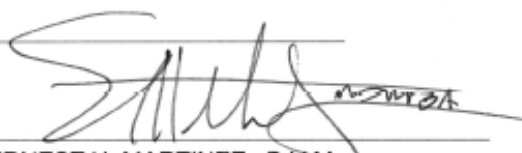

GODOLPHIN

OWNER / AGENT

I have this day examined the horse identified above for evaluation of
eyes

And I have followed the customary standard veterinary clinical procedures in performing this examination. Based on my findings from this examination, it is my opinion that:

The right eye has a corneal opacity from a previous corneal ulcer. It has minimal if any impact on her vision & has remained nonclinical for several years.
